Subject: Re: Missouri Attorney General Meeting (UNCLASSIFIED)

Tx, Chris, for your prompt careful consid of EPA's proposed AG briefing. Pls ask yor staff to contact EPA's Cecilia Tapia to discuss sched.

Yor points abt keeping the various fed agencies' responsibilities clear to AG are valid. I concur DOE participn will b important.

This agency continues to believe no scientific or public health reasons justify new haul route sampling.

Reg 7 appres STL and KC COE tech assist under the West Lake IAG. I look fwd to calling v soon on yor successor, COL Mitchell, to stress this point.

Cheers
Karl

Subject: Missouri Attorney General Meeting (UNCLASSIFIED)

Classification: UNCLASSIFIED

Caveats: NONE

Karl,

I met with member of my team on the issue we discussed yesterday (Missouri AG visit) and believe it has merit. I have three concerns.

1. That we make very clear the distinction between the FUSRAP program information (USACE responsibility) and the EPA data responsibility. I want to ensure that there is no confusion on this point specifically because the area of sampling requested of us is currently not part of our FUSRAP jurisdiction.
2. I would like to make clear that we (USACE) believe we have met the information requirement and would not be defending deficient or incomplete reports. That said, I do believe there is still merit in walking the Attorney General through the USACE, EPA, and DoE sampling history and protocols to provide him greater context to the information we are or will be providing back to his office to meet the FOIA requirements.
3. I believe we should include the DoE SME in this meeting as well so we have a consistent federal message from all three organizations involved.

I will have my DPM, Mr Mike Feldmann, or one of our staff follow up with your office to coordinate the details in moving toward a meeting with the AG in the near future.

Best Regards

Chris
